

DANIELSON AND PUTNAM NEWS

DANIELSON

Red Cross Christmas seals are again being offered the local public. Scores of thousands of them should find eager buyers in Danielson and the surrounding territory. They are little messengers of good will to all mankind at the Christmas season and are significant of the goodness of heart of those who use them.

In the interest of the unfortunate, attention may again be called to the fact that the sale of these seals is what has made possible the establishment of the health station, under the auspices of the Civil Federation, in the town hall building. During the past year, the health station has been the scene of clinics held periodically for patients suffering with tuberculosis. Money used in the purchase of Red Cross seals last year at Christmas time has been used to meet the cost of the clinics provided over by Dr. Hugh Campbell of Norwich, to purchase eggs and milk for needy sufferers who have come to the clinic for treatment, to meet the cost incident to sending patients away for treatment at the state sanatorium at Norwich, and for similar good work.

As the agent of the state association handling the distribution of these seals, the Civil Federation wishes to point out that the money obtained through their sale for local work, and this money is kept in a separate fund and devoted to the uses outlined.

Danielson people who feel any pity for suffering fellowmen and women and who would express their feeling in substantial manner can do no better in an inexpensive way than to purchase Christmas seals. Really remarkable work is done with the money, an instance being that the clinics held here brought to light the case of an ex-serviceman, suffering with tuberculosis, who has been sent through the good offices of the Civil Federation to a government hospital at New Haven.

Buy your seals today! Place them on every letter and package! Let the world know of your kindness of heart!

Clarence H. Truesdell, agent of the Attawapig company, with plants at Attawapig, Duluthville and Elmville, is under treatment for an injury received in a peculiar manner at South Canterbury on Armistice day. Mr. Truesdell was one of a small party of Attawapig men who had gone out to spend part of the holiday hunting. They had just arrived at the hunting territory and alighted from their car when Mr. Truesdell's dog, joyous over being about to enter upon a hunt, started merrily along the dog, jumping over the car and striking him on the head. Mr. Truesdell, who was wearing a hat, was knocked from under him, and he came crashing to the ground on his back. The injury has become more aggravated since the happening and Mr. Truesdell has been receiving treatment for it.

Business will be suspended in Danielson from 2 to 5 o'clock tomorrow (Wednesday) afternoon as a mark of respect to Warden Herbert C. Keesh, whose sudden death was such a shock to the whole community.

In a very large sense, Warden Keesh's death represents a loss to the entire town of Killingly. He not only was an unusually valuable citizen in every respect, but was of such a kindly nature that people flocked under his leadership of friendship. Those who had business dealings with him found the experience pleasing, and all have good words to say of him.

In the various public offices in which he served the town and borough he discharged his duties conscientiously and conservatively, ever showing the greatest care and care that marks the prudent man's administration of his personal affairs.

He possessed in full measure the confidence and esteem of his fellow citizens, and as head of the borough government at the time of his death the public will pause tomorrow afternoon to pay tribute to his memory.

Mr. Keesh was born here July 26, 1878, to the late James E. and Fannie Towne Keesh.

A construction crew will have to be sent from Danielson into the vicinity of North Sterling and another to the Mason cemetery district at East Killingly to restore telephone pole lines that were down in the last storm of last week. These were the only sections so close at hand that suffered so severely. Long lines of poles are said to be down in both the areas mentioned.

The plaster cast in which Sidney R. Bard's head has been encased for nearly

a month as an aid to the resetting of broken jawbones has been removed at the Day Kimball hospital in Putnam. In another week a plaster cast will be removed from his broken arm. Mr. Bard is recovering so satisfactorily that it is now anticipated that he will be able to return to his home in Brooklyn just before Christmas.

Henri L. Baer of Rosedale, L. I., was in town Monday and visited his father, Kenneth, at East Killingly. Mr. Baer said that nearly four inches of snow fell during Sunday at his Long Island place, where he also has kennels.

Thursday, the Feast of St. Immaculate Conception, will be observed with special masses at St. James' church and in the evening there will be a reception for members of the Children of Mary, one of the societies of the parish with a large membership.

Negotiations that promise to give Danielson another important industry and that have to do with one of the large manufacturing plants of the town are still under way and with good prospects of some definite decision being arrived at within a few days, it was announced on Monday.

Schools throughout the town of Killingly will close two weeks from next Friday for the Christmas recess, which will extend over the first of the year, the schools reopening directly after the new year.

Long stretches of snow fences are now in place in fields bordering state highway routes in towns hereabouts. The fences, which are sectional, have been put up within the past few days by forces of the state highway department.

Smart buyers of Christmas gifts are as usual getting the cream of the season's selections by early shopping, and these may be seen about the borough stores at present.

Samuel E. Denton of Providence visited with friends in Danielson on Monday.

W. Irving Bullard of Boston was in Danielson Monday on a business trip.

Page William Jennings Bryan, his aid is wanted in locating a case of grape juice that disappeared from an automobile left unattended in a nearby village Monday afternoon.

A special municipal program has been arranged in connection with the ordination services to be held at the Baptist church here tomorrow (Wednesday) evening.

A dog made its way into the Hawkins street station late Monday afternoon, evidently after having been chased by dogs.

Warnings are being issued that there is a heavy penalty attached to going without permission into woodland territory hereabouts and cutting Christmas trees.

Hundreds of mill employees in this town will get triple holidays on two different occasions toward the end of the month—at Christmas and New Year's.

Miss Clara Armstrong returned to Boston Thursday morning after spending the week and at her home in Danielson.

William Luce was the lone recruit obtained here Monday by the recruiting office that came from Fort Wright to obtain new members for the coast artillery corps.

A funeral paper published at Winter-ham reports the arrival there after a pleasant trip from York of Colonel Henry W. Babson of Danielson, who is to spend the winter at a hotel at the resort, as has been his custom for several years.

Millie of the Attawapig company in the northern section of Killingly is busily engaged on a full time schedule and business is described as good.

Mrs. Clara Thynge of Attawapig is to leave the latter part of this week for Chester, Pa., where she is to visit for the winter with her sons.

Joseph Howard of Worcester spent Monday with friends in Danielson.

The first ice of December was to be seen on ponds and other small bodies of water all through this territory Monday morning, when the temperature went down to 23 degrees.

Wyatt Harper, football coach, is also to coach the K. H. S. basketball team, now getting into form for the season's playing.

Members of the agricultural class at Killingly High school were at Storrs college over the week end.

A degree will be conferred on a class of graduates of Quinebaug lodge of Odd Fellows this (Thursday) evening.

The women's auxiliary of St. Alban's church is to meet with Mrs. Milton A. Shumway this (Tuesday) afternoon. Miss Ada King will be the leader.

The council of the Baptist churches in the Ashford association is to meet Wednesday afternoon at 2 o'clock to consider the ordination of John Walter Houck to the ministry of the Danielson Baptist church. Upon the approval of the council, the following public order of service will be given at 7 o'clock: Organ prelude; Miss Grace M. Stanton; singing, hymn 206; invocation, Rev. W. Douglas Swaffield, Keene, N. H.; scripture reading, II Timothy, 24 chapter; Rev. William W. Allen, Willington; solo, O Jerusalem Arise; Duddy Buck, Mrs. C. Alton Proett; ordination sermon, Rev. M. Joseph Towne, D. D., Newark, N. J.; singing, hymn 627; ordination prayer, Rev. A. P. Costa, D. D., secretary Baptist State convention, Hartford; charge to candidate, Rev. Arthur D. Carpenter, Willington; charge to the church, Rev. Byron W. Hatfield, Westerly, R. I.; singing, Northfield hymn 223; benediction, Rev. J. Walter Houck; reception.

CUT THIS OUT—IT IS WORTH MONEY

Cut out this slip, enclose with 5c and mail it to Foley & Co., 235 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a prize containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills, for pains in sides and back, rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly reliable remedy for constipation, biliousness, headache, and sluggish bowels. Lee & Osgood Co.

Fine for Lumbago

Musterole drives pain away and brings in its place delicious, soothing comfort. Just rub it in gently.

It is a clean, white ointment, made with oil of mustard. It will not blister like the old-fashioned mustard plaster.

Get Musterole today at your drug store. 35c and 65c in jars and tubes; hospital size, \$3.00.

BETTER THAN A MUSTARD PLASTER

PUTNAM

Senator Archibald Macdonald was re-elected mayor of Putnam at Monday's biennial election, again being named by the people of the city as its chief executive, an office in which he has previously made a highly creditable record. Senator Macdonald was unsupported for mayor, running as a republican candidate and without a democratic opponent or a rival of any other political faith.

As was inevitable under the circumstances with which the city election was surrounded following the party caucuses last month, Victor Chappell, an unopposed candidate for alderman-at-large, and all of the other candidates for the common council were elected.

The election was free of that lively atmosphere that marks such occasions when there are sharp contests for preference from the voters, but this did not deter many from going through the motions of voting.

As the result of Monday's election there again will be a republican majority in the common council during the two years beginning with January—five republican and four democratic making up that body.

Senator Macdonald, now mayor-elect, has had no particular ambition to again be the mayor of Putnam, but yielded to the urging of scores of his friends who desired that he become a candidate. The pressure upon him began to be exerted as long ago as last summer, following the annual town meeting in October, when he was again asked to run for the office.

He had no objection to the suggestion, but he was not in a position to do so, as he was at that time engaged in a period during which he hoped to dedicate some of the unpleasant things that have made their appearance in politics here during the past four years.

Senator Macdonald was accessible to all parties to a controversy that has been more or less latent generally, and it is believed that his administration will be marked by the fringing out of these particular difficulties and that harmony will be restored in the political life of the city as a whole.

Mayor-elect Macdonald is known to the citizens of Putnam as a man who does things. As mayor he inaugurated the sewer system building started the work that has since given Putnam fine pavements throughout the business section, and was largely instrumental in the city taking over the plant of the Putnam water company. These were large, important and lasting achievements. As a member of the legislature during several sessions, both in the house and senate, he obtained material benefits for Putnam and other towns of the twenty-eighth district, and made his influence felt in a number of ways.

Mayor-elect Macdonald is known as honest, straightforward, our-far-ther, and a man who will do what he thinks in such a manner as to leave no room for doubt. In the incoming city government Senator Macdonald will have from the citizens the friendship, confidence and good will of the members of the common council and other city officials, and all of the citizens who have the best interests of Putnam at heart are wishing them success in their task to give the city a progressive, economically and able administration. Such problems as will face the new administration are not unresolvable and will get immediate attention with the coming into power of the new administration.

Attorney Archibald Macdonald, son of the mayor-elect, went out in the only contest of the day, as the republican candidate for tax collector, defeating by 165 votes his democratic opponent, Urie Beauséjour. One vote would have elected any of the other candidates on the ticket, as all were unopposed.

Teacher training classes at the Putnam trade school are to open December 14th. Last year this course was confined to members of the trade school instructing staff. This year it is planned to enroll outside men who are desirous of becoming proficient as instructors of their trade. Only tradesmen of recognized ability will be considered for enrollment in this course which will consist of 60 practical teaching hours and 15 or more lectures of two hours each.

The following outline covers the essential points in a general way:

- Trade and Industrial Education
- Why prompts it
- Analysis of trade for
- Process classification
- Type job (process involved)
- Materials
- Tools
- Sequence of operation

Education Content

- a Drawing
- b Mathematics
- c Science
- d Kinds of material
- e Tools
- f Trade terms
- g Systematic planning

Teaching—

- a Drawing comparison between a tradesman and a trade teacher.
- b Should a trade teacher have other than a working trade knowledge.
- c Which other qualifications

Instruction—

- a Mind discipline
- b Right habits, thought, action
- c Order, relation
- d Accuracy
- e Industry
- f Dependability
- g Preparation
- h Explanation (Presentation)
- i Line of approach (Assisting)
- j Application
- k Lesson planning
- l Where instruction takes place
- m Control of instructional conditions
- n Safeguarding of pupil
- o To make experience varied, interesting, create delight in scientific treatment of work.

Provision for observation and practice teaching are provided in 80 practice teaching hours of regular trade pupils and under the supervision of the head instructor of the department.

Graduation requirements are general adaptability of the trainee for the work and duties of a trade teacher.

Certification is limited in its provisions, simply stating that the trainee has completed the course of training and practice teaching.

Related subjects teachers. No special course is provided. Teachers of related subjects are enrolled in the teacher training course for trade teachers thus giving them the experience of the analysis of trade subjects. The separation of draw-

"Gets-It" Ends All Corns

Just As Good For Calluses. Money Back If It Fails.

Thirty seconds after you touch the corn with this liquid corn remover the jabbing, stinging pain of it stops, for all time.

Simple As A, B, C.

No corn, hard or soft, is too old or too deeply rooted to resist "Gets-It." Immediately it dries and shrivels, the edges loosen from the true flesh and soon you can peel it right off with your fingers as painlessly as you trim your nails.

Don't coddle corn pests. Don't nurse and pamper them. Don't cut and trim them. REMOVE them with "GETS-IT." Costs a trifle at any drug store.

Md. by E. Lawrence & Co., Chicago. Sold in Norwich by Chas. Osgood.

ing content, mathematics content and the explanation of processes, machinery, tools and terminology, and in presenting the related matter to the class in acceptable form.

The methods employed in teacher training classes follow the general plans as outlined at the federal board regional conference held at South Beach, Conn. about June, 1920.

The general aim is to promote knowledge necessary to supply instructors for vocational education throughout the state. Tradesmen of the community who are desirous of taking this course are expected to get in touch with the instructor of teacher training at the state trade school not later than December 10th.

Ground was broken Monday on Main street for the cellar and foundation of a new brick business structure to be erected by Louis Wolf and Samuel Kaminsky. The structure is to be 65 by 75 feet and according to present plans, one story in height, although Mr. Wolf said Monday it may be decided to build the structure higher.

The present plans call for a building that will have three stories fronting on Main street, the vicinity of the Pelouquin block. Messrs. Wolf and Kaminsky have had plans for the construction of this building for more than a year, but actually opening of operations did not take place until Monday.

Mrs. Charles R. Browning who was seriously injured several weeks ago in an automobile accident, is recovering at the Day Kimball hospital. The plaster cast in which her head has been encased for some time has been removed. Mr. Browning, who was also hurt in the same accident as his wife, returned to work Monday, though he still feels some of the effects of the injuries received.

Worcester and other places in the county of the same name were again communities Monday, as for a week past, in so far as being able to reach their homes by the railroad was concerned. A connection could be obtained, but more often central was obliged to report that they could not be reached. Such calls as were obtainable were not through direct routes—Woonsocket and other cities, for only a few wires of the hundreds that went down in last week's storm have been restored. The destruction of wires lines was so widespread and complete that it has been impossible to restore service even with hundreds of linemen working week days and Sunday from light until dark at top speed.

There was special interest here in the death of Warden Herbert C. Keesh of Danielson, who was killed in an automobile accident Sunday afternoon. Mrs. Keesh formerly was of this city, being Miss Adeline Deuty, of a family well known here, where many friends extend their sympathies.

One case was disclosed at Monday morning's session of the city court. Judge M. H. Geisler presiding. A man was charged with having been intoxicated faced the court and evaded before the case was called to trial by having been to Webster and had been drinking cider.

Friends here learned with regret of the death in Webster Sunday of Mrs. Susan Thurner, Lisette wife of Frederick Thurner, who she died of a heart ailment. She was a resident of this city.

Lights went out in sections of the city Sunday afternoon when a trolley car southbound, left the rails near the four corners of the intersection of Franklin street and wires of the S. N. E. T. company and the Putnam Light and Power company. None of the twenty passengers in the car were more than shaken up. The pole was broken.

BOEN

FASOLINO—In Norwich, Dec. 5, 1921, a daughter, Ida Theresa to Mr. and Mrs. L. Fasolino of 244 Franklin street.
